Teaching and studying	The program provides student-centered learning. Teaching methods: information-receptive, heuristic and problem-based teaching, practical, receptive-reproductive, explanatory-

	<p>illustrative, problem-searching, research, etc.</p> <p>Forms of training organization: lectures, practical and seminars, individual assignments, consultations, independent study of students, group work, students' research activities, in particular the execution of the research project (master's thesis).</p> <p>Blended learning technology, teaching (translation) practice, pedagogical practice and practice preceding the writing of the Master's thesis.</p>
Assessment	<p>Assessment of students' knowledge is carried out in accordance with the Rating System's Regulation on the learning outcomes of students for all types of Igor Sikorsky Kyiv Polytechnic Institute as applied to classroom work and check-ups (entrance, current, midterm, final control); modular tests, home tests, tests, testing, oral and written exams, reports on the passage of internships, performance of the research project (Master's thesis).</p>
6 – Program competencies	
Integral competency	<p>The ability to solve complex tasks and problems in the field of linguistics, literary studies, translation in the process of professional activity or training, which involves research and / or innovation and is characterized by uncertainty of conditions and requirements.</p>
General competencies (GC)	
GC 1	Ability to write and conduct oral communication in the state language.
GC 2	Ability to be critical and self-critical.
GC 3	Ability to find, process and analyze information from various sources.
GC 4	Ability to identify, pose and solve problems.
GC 5	Ability to work in a team and independently.
GC 6	Ability to communicate in foreign languages.
GC 7	Ability to abstract thinking, analysis and synthesis.
GC 8	Ability to use information and communication technologies.
GC 9	Ability to adapt and act in a new situation.
GC 10	Ability to communicate with representatives of the academic and scientific and technical communities, as well as other professional groups of different levels (with experts from other fields of knowledge / types of economic activity).

GC 11	Ability to conduct research and innovation research at the appropriate level.
GC 12	Ability to generate new ideas (creativity).
GC 13	Ability to make responsible decisions, taking into account social and ethical values and legal norms, in particular in unusual situations.
GC 14	Ability to improve didactic culture and pedagogical reflection.
GC 15	Ability to actively cognitive search and lifelong learning, which provides intrinsic motivation for continuous intellectual development and self-improvement.
Professional competencies (PC)	
PC 1	Ability to navigate freely in various linguistic theories, concepts, directions and schools.
PC 2	Ability to critically comprehend historical achievements and the latest achievements of philological science.
PC 3	Ability to analyze and structure the language and speech material, taking into account the classical and the latest methodological principles.
PC 4	Awareness of the methodological, organizational and legal basis necessary for scientific and innovative research in the field of philology, their presentation to the professional and/or scientific community and the protection of intellectual property for research results.
PC 5	Ability to apply in-depth knowledge of the chosen philological specialization (branch translation) to solve professional problems.
PC 6	Ability to freely use special terminology in the chosen field of philological research to provide professional and scientific written and oral communication.
PC 7	Awareness of the role of expressive, emotional, logical means of language to achieve a planned pragmatic result.
PC 8	Ability to implement a systematic approach to the organization and effective implementation of professional and scientific and innovative activities through the integration of modern information and communication technologies.
PC 9	Ability to develop a structural-semantic algorithm for scientific research and the achieving of the objectives.
PC 10	Ability to apply linguistic and creative thinking to implement communicative and translation strategies in non-standard situations of intercultural interaction.
PC 11	Ability to apply theoretical knowledge of translation studies, in particular

	about the specifics of certain types and types of translation, translation strategies, methods, etc. to implement effective professional activities.
PC 12	Ability to produce, edit, abstract, annotate and systematize various types of texts, including professional ones, in state and foreign languages.
PC 13	Ability to carry out various types of translation of texts of different genres, in particular professional ones, in compliance with regulatory requirements.
PC 14	Knowledge of the norms of international etiquette and professional behavior of the translator in various situations of intercultural communication.
PC 15	The ability to demonstrate innovative methods, forms and methods of the provision of education and manage non-standard situations of the educational process.
7 - Program outcomes of studying	
POS 1	Evaluate their own educational and scientific-professional activities, build and implement an effective strategy of self-development and professional self-improvement.
POS 2	Proficiency in state and foreign languages for the implementation of written and oral communication, including the situations of professional and scientific communication; for the presentation of their research results in state and foreign languages.
POS 3	Apply modern techniques and technologies, in particular informational ones, for the successful and efficient implementation of professional translation, pedagogical and scientific innovation activities.
POS 4	Evaluate and critically analyze socially, personally and professionally significant problems and suggest ways to solve them in difficult and unpredictable conditions, in which the use of new approaches and forecasting is required.
POS 5	To find optimal ways of effective interaction in a professional team and with representatives of other professional groups of different levels.
POS 6	Apply knowledge of expressive, emotional, logical means of language and speech techniques to achieve the planned pragmatic result and the organization of successful communication.
POS 7	Analyze, compare and classify various directions and schools in linguistics.
POS 8	Describe the theoretical foundations (concepts, categories, principles, basic concepts, etc.) of translation studies.
POS 9	Collect and systematize linguistic and speech facts, interpret and translate texts of different styles and genres, as well as different branches.

POS 10	Carry out scientific analysis of linguistic, speech and literary material, interpret and structure it taking into account the classical and latest methodological principles, formulate generalizations on the basis of independently processed data.
POS 11	Follow the rules of academic integrity.
POS 12	Easily explain the essence of specific philological issues based on arguments and one's own point of view on them to both specialists and the general public.
POS 13	Create, analyze and edit texts of different styles and genres.
POS 14	Choose the best research approaches and methods for the analysis of specific linguistic material.
POS 15	Use specialized conceptual knowledge of linguistics and translation studies to solve difficult problems and issues that require updating and integration of knowledge, often in conditions of incomplete/insufficient information and conflicting requirements.
POS 16	Plan, organize, carry out and present research and/or innovative developments in linguistics and translation studies.
POS 17	Apply different translation strategies, methods and techniques in different types of translation.
POS 18	Observe the rules of international etiquette and standards of conduct for a translator in the process of carrying out professional activities.
POS 19	Solve complex tasks and problems of providing and organizing the educational process in a higher education institution.
POS 20	Design and project the content of training and educational work, to make a rational choice of methods for organizing pedagogical activity.
8 – Resource provision of the program’s implementation	
Staffing	In accordance with the staff requirements for ensuring the implementation of educational activities for the relevant level of higher education, approved by the Regulation of the Cabinet of Ministers of Ukraine dated 30.12.2015 № 1187 (current) as amended on 23.05.2018 № 347. Involvement of specialists, foreign native lecturers (embassy of France in Ukraine) in the teaching of disciplines of professional cycle.
Material and technical support	In accordance with the technological requirements for material and technical support of educational activities of the relevant level of higher education, approved by the Regulation of the Cabinet of Ministers of Ukraine

	<p>dated 30.12.2015 № 1187 (current) as amended on 23.05.2018 № 347.</p> <p>Application of modern specialised software: Omega T, SDL Trados Studio 2019, MateCat.</p>
Information and educational and methodical support	<p>In accordance with the technological requirements for educational and methodological and information support of educational activities of the relevant level of higher education, approved by the Regulation of the Cabinet of Ministers of Ukraine dated 30.12.2015 No. 1187 (current) as amended on 23.05.2018 № 347. Use of the Scientific and Technical Library of Igor Sikorsky Kyiv Polytechnic Institute.</p>
9 – Academic Mobility	
National credit mobility	<p>Possibility of academic mobility between other universities.</p>
International credit mobility	<p>Agreements on international academic mobility (Erasmus + K1) have been concluded with universities:</p> <ol style="list-style-type: none"> 1. Dumlupinar University (Kutahya, Republic of Turkey) 2. Polytechnic University of Valencia (Valencia, Kingdom of Spain) 3. University of Groningen (Groningen, Kingdom of the Netherlands) 4. University of Jena (Jena, Federal Republic of Germany) 5. Catholic University of Leuven (Leuven, Kingdom of Belgium) 6. University of Luxembourg (Grand Duchy of Luxembourg).
Education of foreign students	<p>Teaching in foreign languages</p>
